EXPERIENCE

Scotiabank, Canada (remote) — DBA Senior

MAY 2024 - PRESENT

Provides first-level support for mission-critical Oracle database environments, ensuring high availability and performance during on-call shifts.

Monitors database health and handles alerts using enterprise monitoring tools, proactively addressing potential issues to ensure platform stability.

Manages and resolves incidents and service requests according to strict SLA guidelines, collaborating with global teams for escalations.

Executes routine Business-As-Usual (BAU) tasks and standard operational procedures (SOPs) for database maintenance and support.

Praised for clear communication and effective troubleshooting during critical production incidents.

TATA, Bogota Colombia(remote) — Job Title

Dec 2022 - Mar 2024

Administered and migrated Oracle (10g-21c, OCI) deployments on-premise and in the cloud (Azure, OCI) for a large-scale enterprise.

Managed and configured Oracle RAC and EXADATA environments, ensuring stability and efficiency.

Implemented robust monitoring metrics (Nagios) and developed bash scripts to automate maintenance tasks, improving operational processes.

Authored documentation for migration procedures and operational runbooks, demonstrating strong reporting skills.

Executes routine Business-As-Usual (BAU) tasks and standard operational procedures (SOPs) for database maintenance and support
